

## SCIENCE WEEK QUIZ ANSWERS

### MONDAY

Answer: Charcoal

### TUESDAY

Answer: The nail would be at the same height since trees grow at their tops.

### WEDNESDAY

Answer: Fm

These are the chemical elements whose atomic numbers are perfect squares.

1, 4, 9, 16, 25, 36, 49, 64, 81, 100

### THURSDAY

Answer: Lack of Vitamin A. You have trouble seeing in dim light.

### FRIDAY

Answer: Si. (silicon)

Silicon was discovered in 1824.

"Si" with an accent means "yes" in Spanish.

Reverse it to become "is", which is a form of the verb "be".
