## Mock Interviews Evening – A Resounding Success!

We're delighted to share that our recent Mock Interview Evening was a huge success—and it's all thanks to the incredible support from our school community!

This year, we had an outstanding turnout with:

- **46** Interviewers generously giving their time
- **54** Students stepping up for interviews
- **17** Parents supporting behind the scenes
- Professionals representing **26** Different Fields

The energy on the night was fantastic, with students engaging in thoughtful, challenging, and inspiring conversations across a wide range of professions. From medicine to media, engineering to entrepreneurship, our interviewers brought a wealth of real-world insight that helped our 6th Year students gain valuable experience and confidence.

Many interviewers commented on how impressed they were by the students' preparation, curiosity, and enthusiasm—and students left with helpful feedback, new ideas, and a real boost to their future ambitions.

A huge thank you to all who participated, supported, and helped make the evening run smoothly. Events like this show just how impactful the Parents Association can be in enhancing our students' school journey.

If you'd like to be part of our next project or learn more about what we do, why not join us at our upcoming meeting? New faces are always welcome!
